# IMPORTANT SAFEGUARDS

## IMPORTANT SAFEGUARDS

1. **Read Instructions** - All the safety and operating instructions should be read before the appliance is operated.

2. **Retain Instructions** - The safety and operating instructions should be retained for future reference.

3. **Heed Warnings** - All warnings on the appliance and in the operating instructions should be adhered to.

4. **Follow Instructions** - All operating and use instructions should be followed.

5. **Cleaning** - Unplug TV/DVD from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

6. **Attachments** - Do not use attachments not recommended by the TV/DVD manufacturer as they may cause hazards.

7. **Water and Moisture** - The apparatus shall not be exposed to dripping or splashing water and that no object filled with liquids, such as vases, shall be placed on the apparatus.

8. **Accessories** - Do not place this TV/DVD on an unstable cabinet, stand, bracket, or table. The TV/DVD may fall, causing serious injury to someone, and serious damage to the appliance. Use only with a cabinet, stand, bracket, or table recommended by the manufacturer, or sold with the TV/DVD. Any mounting of the appliance should follow the manufacturer's instructions and use a mounting accessory recommended by the manufacturer. An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cabinet combination to overturn.

PORTABLE CABINET WARNING

9. **Ventilation** - Slots and openings in the cabinet and the back or bottom are provided for ventilation and to ensure reliable operation of the TV/DVD and to protect it from overheating, and these openings must not be blocked or covered. The openings should never be blocked by placing the TV/DVD on a bed, sofa, rug, or other similar surface. This TV/DVD should never be placed near or over a radiator or heat register. This TV/DVD should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to. Around the unit, the space should be more than 10cm.

10. **Power Sources** - This TV/DVD should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your appliance dealer or local power company.

11. **Grounding or Polarization** - This TV/DVD is equipped with a polarized alternating - current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

12. **Power-Cord Protection** - Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, and the point where they exit from the appliance.

13. **Lightning** - For added protection for this TV/DVD receiver during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the TV/DVD due to lightning and power-line surges.

14. **Power Lines** - An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

1

15 **Overloading** - Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.

16 **Object and Liquid Entry** - Never push objects of any kind into this TV/DVD through openings as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the TV/DVD.

17 **Servicing** - Do not attempt to service this TV/DVD yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

18 **Damage Requiring Service** - Unplug this TV/DVD from the wall outlet and refer servicing to qualified service personnel under the following conditions:

A. When the power-supply cord or plug is damaged or frayed.

B. If liquid has been spilled, or objects have fallen into the TV/DVD.

C. If the TV/DVD has been exposed to rain or water.

D. If the TV/DVD does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions, as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the TV/DVD to its normal operation.

E. If the TV/DVD has been dropped or damaged in any way.

F. When the TV/DVD exhibits a distinct change in performance - this indicates a need for service.

19 **Replacement Parts** - When replacement parts are required, be sure the service technician has used replacements parts specified by the manufacturer that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, injury to persons or other hazards.

20 **Safety Check** - Upon completion of any service or repairs to this TV/DVD, ask the service technician to perform routine safety checks to determine that the TV/DVD is in proper operating condition.

21 **Heat** - This TV/DVD product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

22 **Electrostatic** - In DVD mode, your DVD Disc may be playback from the first parts because of the electrostatic symptom.

23 **Secondary Switch** - When switching off, the apparatus is not completely switched off from the mains. To disconnect it from the mains, you have to unplug mains.

## Inserting the Batteries

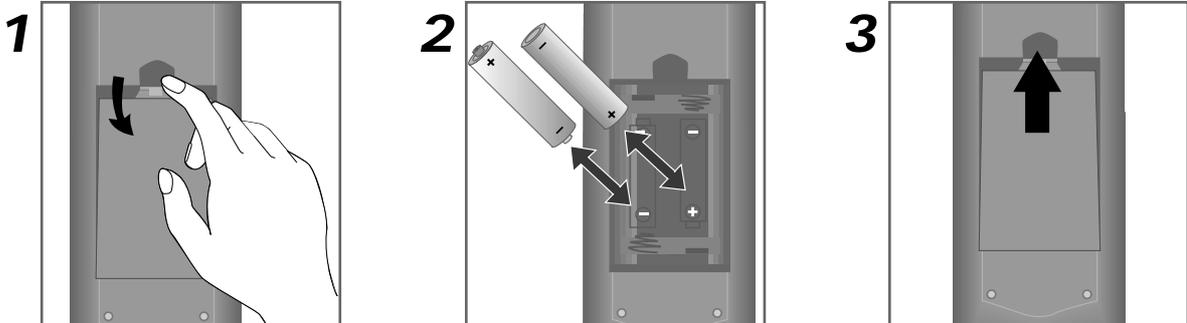

Please respect the environment and prevailing regulations. Before you dispose of batteries, ask your dealer whether they are subject to special recycling and if he accepts to take them back.

### AERIAL SOCKET : (75Ohms-VHF/UHF/cable)

The aerial socket, located at the back of the TV/DVD set, enables the connection of an external aerial or one from another item of equipment fitted with a modulator (video recorder, satellite receiver, etc.).
(NB: A modulator converts basic video and sound signals to radio frequencies, 'R.F.'.)

### MAINS PLUG:

The mains plug carries the power supply to your TV/DVD set. It should only be connected to an AC supply of 220-240V ~ 50Hz.

It must not be connected to a DC supply. If the plug is detached from the cable, do not under any circumstances connect it to a mains socket as there is a danger of electrocution.

### UK SOCKET
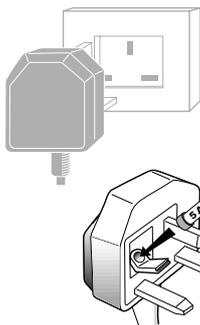

Equipment for the UK is supplied with a mains cable fitted with a moulded plug.

The plug contains safety components and must not be replaced by a type sold in shops. It is fitted with a fuse that protects your TV/DVD. If your set no longer works, the fuse may have blown. If it has, replace it with an identical ASTA certified or BSI (BS 1362) 5 amp fuse.

# Basic Installation

## Connecting the Antenna Cable

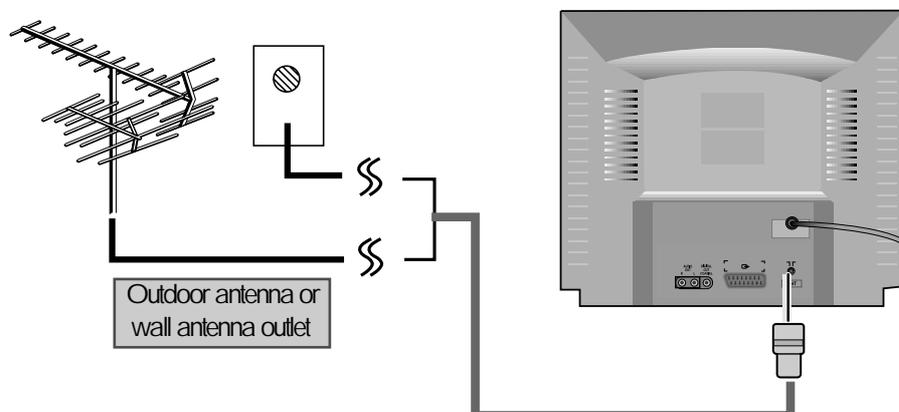

If TV picture is not clear, it usually result from the wrong antenna connection.
Please install the antenna in the proper place and in the right direction.

## Connecting a SCART SOCKET

### ■ DRC (Dynamic Range Compression)

What is DRC (Dynamic Range Compression)?

It is also called "Midnight Mode". It can decrease the difference between the loudest and the softest tone and prevent sudden loud tone. Therefore, you can get the soft voice clearly without disturbing others at night.

On: It compresses the dynamic range.

Off: It outputs the dynamic range as it originally was.

### ■ PBC (PlayBack Control)

On: Menu mode works when playing a disc with PBC function (Video CD version 2.0).

Off: Menu mode does not work when playing a disc with PBC function (Video CD version 2.0).

### NOTE

• The DRC function works only during playing the Dolby Digital DVD discs.

• The level of Dynamic Range may differ depending on the DVD disc.

### Always...

- handle your discs with care.

  Hold a disc with fingers on the border or hole,

- place disc with the label facing upward (in case of a single-sided disc),
- place the disc properly into the tray using the proper guide area,
- use a soft cloth to clean discs if necessary, wipe from the centre to the border,
- always put discs back into their cases after playing and store in a vertical position.

### Never...

- never close the tray with two discs on it or with a disc slipping out of the guide area,
- never play cracked, chipped or deformed discs nor try to repair them with adhesive tape or glue,
- never write on the disc,
- never move the player during playback,
- never scratch discs or store them in places of direct sunlight, high humidity or high temperature,
- never try to play a Photo CD , CD-G or CD-i in this TV/DVD.
- never use record cleaning sprays, benzine, static electricity liquids or any other solvent, if the disc surface is dirty.
- Wipe gently with a soft damp (water only) cloth, never wipe the disc in a circular motion, since circular scratches are likely to occur and could cause noise during playback.

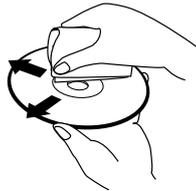

> If you hear strange noises or vibrations coming out of the unit once a disc has started to play, rapidly press the STOP button of the remote control or front of player.
