

## USB to Mac/Serial Adapter

Just because you've upgraded to a G3, a G4, or an iMac™ doesn't mean you necessarily need to buy a new printer, too. With the USB to Mac/Serial Adapter, you can connect to your older equipment even though it doesn't have the USB connection that your newer computer requires.

The USB to Mac/Serial Adapter connects one USB out port to two Apple Desktop Bus™ (ADB™) ports. Select between two ADB ports via a switch on the USB to Mac/Serial Adapter to access different ADB peripherals such as keyboards, mice, joysticks, trackballs, and hardware dongles. The Adapter supports both serial and GeoPort compatible devices.

Because of its fast data-transfer rate (230 kbps; up to 860 kbps using an external clocking system), the Adapter is ideal for ISDN and other high-speed serial devices. Please note, however, that the Adapter does not support Epson® inkjet serial printers or printers that require AppleTalk® or LocalTalk® protocol to work properly.

**CUSTOMER  
SUPPORT  
INFORMATION**

Order **toll-free** in the U.S. 24 hours, 7 A.M. Monday to midnight Friday: **877-877-BBOX**  
FREE technical support, 24 hours a day, 7 days a week: Call **724-746-5500** or fax **724-746-0746**  
Mail order: **Black Box Corporation**, 1000 Park Drive, Lawrence, PA 15055-1018  
Web site: [www.blackbox.com](http://www.blackbox.com) • E-mail: [info@blackbox.com](mailto:info@blackbox.com)

You should have received the following items when you ordered the USB to Mac/Serial Adapter: (1) Adapter, (1) installation CD-ROM, and this user's guide. If anything is missing, please call Black Box at (724) 746-5500.

Before you install the Adapter, please make sure your system meets these requirements:

- Non ADB equipped Macintosh® system with an available USB port.
- Mac® OS 8.6 or higher.

To install the software, double click on the "USB/ADB Installer" icon and follow the prompts.

To install the hardware:

- 1) Connect your ADB devices to the USB to Mac/Serial Adapter.
- 2) Connect your USB to Mac/Serial Adapter's 3-ft. (0.9-m) USB cable to your computer's available USB port.
- 3) Turn on your computer.

### **CAUTION!**

**To prevent fire or electric shock, do not expose the USB to Mac/Serial Adapter to water or extreme heat.**
