

Quick and easy sweeping

THE EASY WAY TO KEEP INDOOR AND OUTDOOR AREAS LITTER-FREE

The SW 650S is a walk behind sweeper. It's ideal for limited space or congested areas. The SW 650S increases productivity, easily replacing dozens of conventional brooms. It's the quick clean-up solution for small factories, gas stations, convenience stores, warehouses and parking lots.

SW 650S sweeps three times faster and more thoroughly than a conventional broom, saving time and labour costs. It keeps your surroundings neat and litter-free - with minimal cost and effort.

SWEEPING BOTH INDOOR AND OUTDOOR

The SW 650S picks up paper, leaves – even small screws, nails and bolts, and the machine is built to last. The handle is made of metal, while the hopper and other key components are made of polyethylene – a robust material that won't rust, chip, dent or crack. This durable polyethylene is also exceptionally light, making the SW 650S easy to push, pull and manoeuvre. Mechanically simple, it's virtually service free.

- Main brush flips up litter into the 40-litre hopper
- Rubber skirt keeps in dust and dirt
- Quiet and fume-free operation
- Large comfortable handle and large wheels make the machine easy to manoeuvre

Years of useful service

Side brush is easily adjusted and pulls debris away from walls, kerbs, pallets and is easily raised when not needed

Hopper is light and easy to remove and empty

TECHNICAL SPECIFICATIONS

Description	Unit	SW 650S
Productivity rate theoretical/actual	m ² /h	2000/1400
Working width w/right side brush	mm	685
Hopper capacity	litres	40
Wheel diameter	mm	260
Main brush length	mm	480
Side brush length	mm	300
Width (with side brush)	mm	762
Dimensions (l x w x h)	cm	110x77x90
Dimensions w/side brush (l x w x h)	cm	125x77x90
Weight	kg	22.3
