

Wireless Stereo Headphones

Model 35IR-PLC

1. Fully adjustable comfort strap wrapped with leatherette cushioning to fit all sizes
2. Recessed wiring resists prying fingers for classroom safety
3. USB connector plug for technology-oriented applications
4. Infrared transmitter with 5' line of sight range
5. Replaceable foam-filled ear cushions
6. Volume control
7. On/off switch
8. Noise-reducing earcups lower ambient noise so volume does not need to be as high, as recommended by audiologists
9. Built-in wireless receivers (a formed semi-circle in front of transmitter is considered ideal for group reception)
10. Rugged ABS plastic headband and earcups for durability
 - Includes a 3' USB attachment cord to extend reach from the computer to the transmitter for enhanced IR transmission
 - Warranty for school use - unlike items purchased at a consumer electronics store whose warranty is voided if used in schools

Wireless headphones remove the tethered feeling to media players and computers. This set of four wireless stereo headphones are ideal for situations involving shared computers in labs, libraries and classrooms and language learning situations. It can also be used as a teaching resource in ed tech applications. The USB connector (included) transmits wireless audio for functional and convenient wireless learning.
