
INSTALLATION INSTRUCTIONS

Pole Clamp Accessory

Model: FSA-1017

The FSA-1017 Pole Clamp Accessory is used to provide a means for attaching a desktop or wall mount to a 1 1/2" to 2" pole.

BEFORE YOU BEGIN

⚠ CAUTION!

To prevent damage to the Kit, which could affect or void the Factory warranty, and to the equipment that will be attached to it, thoroughly study all instructions and illustrations before you begin the installation.

- If you have any questions about this installation, contact Chief Manufacturing at 1-800-582-6480.

INTRODUCTION

TOOLS REQUIRED FOR INSTALLATION

- 5/32" Hex Key (provided)

INSPECT MOUNT BEFORE ASSEMBLY

Carefully inspect components for shipping damage . If damage is apparent, call your carrier claims agent and do not continue with installation until the carrier has reviewed the damage.(see Figure 1)

Table 1: Parts

Ref.	Description	QTY
10	CLAMP, Front, Pole Mount	1
20	CLAMP, Rear, Pole Mount	1
30	SCREW, Button Head Cap,	3
40	KEY, Hex, 5/32" (not shown)	1

Figure 1: PARTS

EXISTING MOUNT PREPARATION

Prior to installing the FSA-Pole clamp, the existing mount has to be modified.

To prepare the existing mount:

1. Remove display, if present, from existing mount following the instructions supplied with mount.
2. Loosen button head cap screw securing swing arm to base on existing mount using a 5/32" hex key (40). (see Figure 2)
3. Uninstall button head cap screw, one nylon washer, and two flat washers from swing arm and set aside for reuse. (see Figure 2)
4. Lift swing arm up and off of pivot pin and set aside for reuse. (see Figure 2)
5. Remove large nylon washer, pivot pin, and Nylock nut from existing mount base and set aside for reuse. (see Figure 2)

Figure 2: Remove Mount from Existing Base

POLE CLAMP INSTALLATION

1. Insert Nylock nut (previously set aside) crown down into front half of pole clamp. (see Figure 3)

Figure 3: Insert Nylock Nut

NOTE: The following steps reuse hardware set aside during existing mount preparation.

2. Place large Nylon washer into seat in pole mount front. (see Figure 4)
3. Slide pivot pin through large nylon washer and down into pole mount front. (see Figure 4)
4. Slide swing arm assembly down onto top of pivot pin.
5. Assemble two flat washers and one nylon washer onto button head cap screw. (see Figure 4)
6. While holding Nylock nut, previously installed into pole mount front, slide button head cap screw with washers through swing arm and down into pole mount front until contact with Nylock nut is made.
7. Secure swing arm to pole mount front by screwing button head cap screw into nylock nut.

NOTE: It may be necessary to move Nylock nut slightly in order to allow button head cap screw to properly seat in nut and allow tightening.

Figure 4: Install Swing Arm to Front Pole Mount

8. Place pole mount front with swing arm against pole in approximate mounting location.
9. Place three BHCS (30) into pole mount rear (20) and place against pole aligning with mount front (10).

10. Secure pole mount rear (20) to pole mount front (10) and pole by tightening three BHCS (20) using 5/32" hex key.

ADJUSTMENTS

The FSA-1017 allows for both vertical and horizontal position adjustment on pole.

To adjust FSA-1017 position:

1. Loosen single (right) rear BHCS (30). (see Figure 6)
2. Move FSA-1017 to desired position. (see Figure 6)
3. Tighten BHCS (30).

⚠ CAUTION!

ALWAYS use two people when adjusting FSA-1017 position.
