## 36V550T

36" (Diagonal) Stereo Television

### Features

### Benefits

Exclusive RCA VPORT™

A unique jack which simplifies connection of Microsoft's Xbox™ video game console. Also functions as a second component video input with optional cable.

Component Video Input (Y Pr Pb) on rear allows a single device with Y Pr Pb outputs (such as a DVD player, or a satellite receiver) to be connected.

Improves video quality by separating the signal into 3 video connectors. Provides more vibrant, sharper images compared to single video inputs.

Digital 3-Line Comb Filter

Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.

Connections for 2 rear L+R+V devices (when Component Video input unused), plus 1 set of front L+R+V inputs. A rear L+R+S-Video can be substituted for L+R +V input.

Simplifies connecting other devices such as a game system, digital camera, or VCR. Stereo audio outputs offer selectable fixed or variable output.

Sound Logic™

Provides consistent volume levels throughout programming & channel changes. Eliminates annoying "blast" of sound during some commercial breaks.

Broadcast Stereo and Front-Fired Speaker System

Improves the clarity and fidelity of stereo broadcasts. Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.

KidPass™ - Parental Control

Allows predetermined viewing time (up to 16 hours per day) to be set in 30-minute increments with a password. Allows daily setting over 7 days.
