Flip-Over 5 Bar Spike Tooth Harrow

Ideal for ATVs and Garden Tractors. Easily Flips from Transport Position to Working Position

Worksaver Flip-Over 5 Bar Spike Tooth Harrow

- Design allows harrow to easily be changed from transport to working position.
- Great for leveling gardens, food plots and playing fields.
- Harrow flips over for transport across open fields, lawns, driveways or areas not requiring harrowing.
- Rear teeth adjustment lever is convenient to adjust.
- Forty-two (42) spike teeth for positive soil penetration and leveling.
- Staggered tooth pattern for maximum field coverage.
- Flexible design will not plug, yet levels and prepares most fields in a single or multiple passes.
- Adjustable spike tooth angle allows harrow to work as a smoothing tool or an aggressive tillage tool.
- Forged replaceable high carbon spike teeth.
- High-carbon tubular tooth bar provides strength with outstanding tooth support.
- Operating width is 5-feet for maximum coverage.

FLIP-OVER HARROW SPECIFICATIONS
