

FRONT LOAD WASHERS

New LG SteamWasher™

WM3001HWA

WM3001HRA

WM3001HPA

Performance

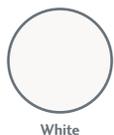

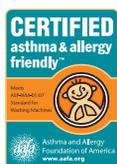

- 4.5 cu.ft. Ultra Capacity with NeveRust™ Stainless Steel Drum (IEC)
- Direct Drive Motor for the Ultimate in Durability and Reliability
- 10° TilTub™ for Easy Reach into the Rear of the Drum
- 1300 RPM Powerful Spin for Efficient Water Extraction
- Wash/Rinse Optimizer™
- Allergiene™ Cycle
- SteamWash™ System for Better Washing Performance and Higher Water and Energy Efficiency
- SenseClean™ System for Intelligent Fabric Care
- SteamFresh™ Cycle
- 9 Washing Programs
- 5 Temperature Levels
- RollerJets™ and Forced Water Circulation
- Sanitary Cycle with Added Steam Option
- Delay Wash (up to 19 hours)

Style and Design

- Upfront Electronic Control Panel with Trilingual Big LCD Display (English/French/Spanish) and Dial-A-Cycle™
- White LED Tub Light
- Large Chrome Rimmed Door with Glass
- Stackable with Matching Dryer
- Optional Matching Drawer Pedestal

Technology Benefits

- LoDecibel™ Quiet Operation
- Highly Energy and Water Efficient

LG front load washers exceed Energy Star® classifications by a minimum of 39%.

NSF International certifies the SANITARY cycle which is intended for reducing 99.9% of bacteria and other harmful microscopic organisms on laundry.

FRONT LOAD WASHERS

Allergiene™

Allergiene™ cycle is proven to reduce certain allergens such as house dust mites and domestic animal dander.

SteamFresh™

LG's innovative SteamFresh™ cycle makes it possible for you to refresh and reduce wrinkles in up to 5 garments at one time. Running late for work with no time to iron? Load a cotton blend shirt into the SteamWasher™ and select the SteamFresh™ cycle. You'll be ready to go in just 20 minutes.

Intelligent Electronic Controls with Big LCD Display

Intuitive controls allow you to 'set it and go'. The large LCD display provides instructions and diagnostics while keeping you updated on the cycle status and time remaining.

Wash/Rinse Optimizer™

The Wash/Rinse Optimizer™ delivers optimal washing and rinsing performance. A special sensor determines the amount of detergent and water hardness, making automatic adjustments to the wash/rinse processes. When there is too much detergent, additional rinse cycles are added to virtually eliminate soap residue making fabrics more comfortable on sensitive skin as well as ensuring a "like new" appearance on dark clothes. When too little detergent is used, this feature extends the wash cycle to ensure adequate cleaning performance.

Ultra Capacity

4.5 cu.ft. Ultra Capacity is among the largest washers available. This allows for larger loads saving you time and energy.

Large Door Opening

The 16.93" extra large door opening is the largest door opening available. This allows for a spacious opening always easier access for loading and unloading clothes and bulky items.

Stackable or Side by Side?

Your Choice. Less space? Try stacking the washer and dryer. More space? Place them side by side or under a counter. Don't want to bend down so far to load or unload clothing? Add our 13.7" high drawer pedestals. They're also a great place to store laundry detergent supplies.
