xtant1.1i
—audiophile,
full range,
class d,
mono-block
amplifier

introducing the world's first, and only, class d amplifier designed for sound quality. while everyone else said it could never be done, the xtant 1.1i destroys all conventional ideas on class d technology—at 5.8" x 6.5" with its 100 watt, single channel design, the xtant1.1i reminds us all that sound quality matters.

performance. technology. style. xtant.
