e825 S

The **e**825 S is a general purpose microphone ideal for vocal and instrument miking and club PA. The balanced frequency response produces a warm, smooth sound.

The cardioid pick-up pattern provides excellent feedback and spillage rejection. The rugged metal construction and internal damping isolates handling noise.

The **e**825 S features a silent ON/OFF switch.

Features

- Rugged metal body
- Excellent feedback and spillage rejection
- Good suppression of handling noise
- Balanced frequency response
- Warm transparent tonal response
- Silent ON/OFF switch

Delivery includes

- e825 S microphone
- MZQ 800 microphone clamp
- Pouch
- Instructions for use
- Warranty Certificate

ON/OFF switch

Use the screw to lock the switch in the ON position. With the switch set in the ON position, gently turn the screw head 90° to lock the switch in position.

Removing the sound inlet basket

Positioning the microphone

Position	Resulting sound	Commentary
	High proximity effect (much bass/ fundamental) powerful, direct sound	Very little crosstalk from other sound sources
 5-10 cm	Less proximity effect (less bass/ fundamental) Some room ambience, natural, balanced sound	More crosstalk from other sound sources
 >10 cm	Very little proximity effect (little bass/ fundamental) More room ambience, indirect sound	Much crosstalk from other sound sources

If sibilance or „popping“ occurs, position the microphone not directly in front of the mouth but slightly to the side. In order to prevent feedback, position monitor loudspeakers so that they are located in the angle area of the highest cancellation of the microphone.

In order to prevent interference due to crosstalk between adjacent sound sources, try to position the microphone so that the interfering sound source is located in the angle area of the highest cancellation of the microphone (approx. 180°; see polar diagram).

Specifications

Transducer principle	dynamic
Frequency response	80.....15,000 Hz
Pick-up pattern	cardioid
Sensitivity (free field, no load at 1 kHz)	1.5 mV/Pa
Nominal impedance	350 Ω
Min. terminating impedance	1 kΩ
Connector	XLR-3
Operating temperature	0°C to +40°C
Weight	330 g
Dimensions	Ø 48 x L 180 mm

Pin assignment of XLR-3 connector

Overview of microphone applications

Application	Variant	e602-	e604	e606	e608	e614	e815	e825	e835	e840	e845	e865
Vocals							x	x	x	x	x	x
Choirs						x						
Studio, acoustic instruments						x						
Orchestra						x
