USER GUIDE

V 1.0

CE

Important

To use 'Caller ID' (display caller), this service has to be activated on your phone line. Normally you need a separate subscription from your telephone company to activate this function. If you don't have the Caller ID function on your phone line, the incoming telephone numbers will NOT be shown on the display of your telephone.

This product is in compliance with the essential requirements and other relevant provisions of the R&TTE directive 1999/5/EC.
The Declaration of conformity can be found on :

http://www.topcom.net/support/cedeclarations.php

The features described in this manual are published with reservation to modifications.

1 Before Initial use

Thank you for purchasing this new desktop caller ID telephone.

1.1 Intended Purpose

This product is intend to be connected indoor to an analogue PSTN telephone line.

1.2 Caller ID

To use 'Caller ID' (display caller), this service has to be activated on your phone line. Normally you need a separate subscription from your telephone company to activate this function. If you don't have the Caller ID function on your phone line, the incoming telephone numbers will NOT be shown on the display of your telephone.

1.3 Connection

The CE symbol indicates that the unit complies with the essential requirements of the R&TTE directive.

This device has been designed and manufactured to comply with the 98/482/EC rule, referent to the Pan European connection of a terminal to the Public Switching Telephone Network (PSTN) and following the established guidelines by the 1999/5/EC Directive about radio electric equipment and the reciprocal acknowledge of their conformity. However, due to the fact that there are some differences in the PSTNs from one country to another, the verifying measurements by themselves do not set up an unconditional guarantee for an optimal working in every connection point to the PSTN of any country.If any problem comes up, get in touch firstly with the distributor.

In any case, use conditions for which the product has been created should be respected as well as avoid its use in public or private networks with technical requirements clearly different to those established in the EU.

2 Safety instructions

Please read carefully through the following information concerning safety and proper use. Make yourself familiar with all the functions of the equipment. Be careful to keep these advice notes and if necessary pass them on to a third party.

- Do not place the basic unit in a damp room or at a distance of less than 1.5 m away from a water source. Keep water away from the telephone.
- Do not use the telephone in environments where there is a risk of explosions.
- Dispose of the batteries and maintain the telephone in an environment-friendly manner.

3 Cleaning

Clean the telephone with a slightly damp cloth or with an anti-static cloth. Never use cleaning agents or abrasive solvents.

4 Disposal of the device (environment)

At the end of the product lifecycle, you should not throw this product into the normal household garbage but bring the product to a collection point for the recycling of electrical and electronic equipments. The symbol on the product, user guide and/or box indicate this.
Some of the product materials can be re-used if you bring them to a recycling point. By re-using some parts or raw materials from used products you make an important contribution to the protection of the environment.
Please contact your local authorities in case you need more information on the collection points in your area.

Mount the telephone on the screws.

13 Warranty

13.1 Warranty period

The Topcom units have a 24-month warranty period. The warranty period starts on the day the new unit is purchased. The warranty on batteries is limited to 6 months after purchase. Consumable or defects causing a negligible effect on operation or value of the equipment are not covered.
The warranty has to be proven by presentation of the original purchase receipt, on which the date of purchase and the unit-model are indicated.

13.2 Warranty handling

A faulty unit needs to be returned to a Topcom service centre including a valid purchase note.
If the unit develops a fault during the warranty period, Topcom or its officially appointed service centre will repair any defects caused by material or manufacturing faults free of charge.
Topcom will at its discretion fulfil its warranty obligations by either repairing or exchanging the faulty units or parts of the faulty units. In case of replacement, colour and model can be different from the original purchased unit.
The initial purchase date shall determine the start of the warranty period. The warranty period is not extended if the unit is exchanged or repaired by Topcom or its appointed service centres.

13.3 Warranty exclusions

Damage or defects caused by incorrect treatment or operation and damage resulting from use of non-original parts or accessories not recommended by Topcom are not covered by the warranty.
Topcom cordless phones are designed to work with rechargeable batteries only. The damage caused by the use of non-rechargeable batteries is not covered under warranty.
The warranty does not cover damage caused by outside factors, such as lightning, water and fire, nor any damage caused during transportation.
No warranty can be claimed if the serial number on the units has been changed, removed or rendered illegible.
Any warranty claims will be invalid if the unit has been repaired, altered or modified by the buyer or by unqualified, non-officially appointed Topcom service centres.
