Installation

Windows

1. Open a web browser and go to www.startech.com/downloads.
2. Enter your product ID (ICUSB232) and click Search.
3. Select the product from the search results, and download the available Prolific_PL2303.zip file.
4. Once downloaded, right-click the zip file and extract the contents.
5. Browse to the Windows folder and run the PL2303_Prolific_DriverInstaller application, following the on-screen instructions to complete the install.
6. Connect the USB Serial cable to an available USB port.

Mac

1. Open a web browser and go to www.startech.com/downloads.
2. Enter your product ID (ICUSB232) and click Search.
3. Select the product from the search results, and download the available Prolific_PL2303.zip file.
4. Once downloaded, double-click the zip file to extract the contents.
5. Browse to the Mac folder and choose the appropriate folder for the version you are running.
6. Run PL2303_x.dmg application and follow the on-screen instructions to complete the install.
7. Connect the USB Serial cable to an available USB port.

Verifying Successful Installation (Windows)

1. Open the System folder (My Computer, Control Panel, System).
2. Click the "Device Manager" tab at the top of the dialogue box.
3. Click the "+" in front of the Universal Serial Bus Controller heading to see the USB controller listing. If the Installation is completed successfully, you should see an entry for USB to Serial Cable.

Connecting Peripheral Devices

With the computer booted up and the USB Serial Adapter already plugged into the computer's USB port, plug the peripheral into the USB Serial Adapter; then turn the peripherals On.

NOTE: This procedure only occurs the first time you connect up your peripheral. If your peripheral was previously connected and configured for the RS-232 (COM) port, after you perform the Adapter Installation and click Finish, the driver will detect it and install it automatically.

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
