* Varies with alternative walls.

Required Electrical Service

Dedicated circuit required, protected with Class A Ground-Fault Circuit-Interrupter (GFCI):

Pump 120 V, 15 A, 60 Hz

Installation Notes

Install this product according to the installation guide.

Pump is supplied with a grounding type plug-in cord. Locate the outlet behind the whirlpool, and within 24" (61 cm) of the pump.

Do not disassemble the pump or piping as this could void the warranty.

Size the drain cutout to fit the drain assembly that will be used.

Stud positioning is critical.

Studs should be positioned roughly as shown for support clip or roofing nail installation.
