## MOBILE CARVING STATION

- Food preparation takes center stage with this multi-purpose, mobile cooking and carving station, fully equipped to serve breakfast, lunch, and dinner.
- Total mobility provided by four heavy duty casters puts complete cooking capability on a buffet line, at pool-side patios, for brunches and special event celebrations — wherever and whenever you need it.
- Three polished brass rails and heat lamps, surrounded by an etched glass sneeze guard, add an elegant touch and provide an impressive showcase display.
- Black Formica counter surface includes two MagnaWave™ Cook Tek induction burners with individual controls and a variable-speed downdraft system which retracts for a flat, clean appearance when not in use.
- A counter top hot well provides hot food holding for two full-size pans or can be filled with ice for an attractive cold food display.
- The heated, solid-top insert provides both beauty and durability for holding an array of hot food items or to carve for immediate plating.
- Round-out cooking and holding needs with an under the counter area which includes three generous storage shelves, a Halo Heat® cook and hold oven, and a full-size two drawer warmer.

Three (3) adjustable lamp assemblies provide additional heat to the product surface with 250 watt coated infrared heat lamps, each controlled with an ON/OFF toggle switch. The top heated insert is controlled by one (1) ON/OFF switch and an adjustable thermostat with a range of 1 through 10 with one (1) indicator light. Halo Heat® hot food holding well is controlled by an ON/OFF switch and an adjustable thermostat with a range of 1 through 10 with one (1) indicator light. The well holds two (2) full-size pans. Well includes a convenient drain, drain plug, and drain hose for easy clean-up when using ice for cold food holding. Induction cook top includes two (2) burners with individual high/low controls (magnetic cook pans required). GE™ retractable ventilating downdraft system has a variable speed fan. Standard black painted frame is mounted on four (4) 6" (152mm) swivel, locking casters for easy mobility. Sanitary cutting board with gravy lane is included.

**MODEL GC-89:** Mobile Carving Station, 89" (2261mm) wide
