

# USE AND CARE

Congratulations on your purchase of the Obus Forme® by Conair™ Gel Seat. The Obus Forme Gel Seat combines the luxurious comfort of gel with contoured support for comfort in any seat, anywhere you go.

## ABOUT YOUR OBUS FORME® BY CONAIR™ GEL SEAT

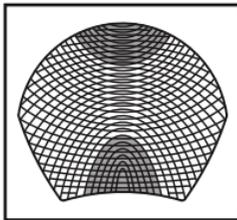

The ergonomically contoured pommel shape of the Obus Forme® by Conair™ Gel Seat helps to support you in proper, upright posture. A gel insert is set into a molded foam base so that the Obus Forme® by Conair™ Gel Seat conforms to your body for a personalized fit, and helps to reduce pressure on sitting bones. Its base is composed of polyurethane foam that is molded into a contoured shape to provide you with additional comfort.

The gel grid is designed to provide different zones of comfort and support for a luxurious sitting experience:

**Zone 1:** Dense gel provides firm support at the front and back of your seat to help you sit upright.

**Zone 2:** Softer gel in the center and throughout the remainder of the seat provides a cushioning effect to help soothe aching sitting bones.

The Obus Forme® by Conair™ Gel Seat cover is designed with a mesh interior to allow for increased air circulation.

## HOW TO USE YOUR OBUS FORME® BY CONAIR™ GEL SEAT

Lightweight and portable, your Obus Forme Gel Seat is ideal for use anywhere you sit – at home, in the office and on the go!

**CAUTION!** This product may not be suitable for use in all vehicles, or while driving. Please refer to your vehicle's owner's manual for important safety guidelines if you are planning to use this product in your vehicle.

## USE AND CARE TIPS

The Obus Forme Gel Seat is made with synthetic materials. If the surface of your cushion becomes soiled, it can be wiped gently with a damp cloth, mild soap and a sponge, or a soft brush. Do not rub the cushion excessively or place it in a washing machine. Avoid soaking the cushion as this may damage the material. To dry, pat with a clean, dry cloth.

## MATERIALS

Exterior: 100% polyester

Interior: Molded foam base is 100% polyurethane foam;  
gel grid is 100% Styrene Ethylene Butylenes Styrene Copolymer.

Product complies with all U.S. and Canadian regulations regarding flammability.
