● Statement

The DG-250 is a dual relay digital code-operated for access control keypad with up to 49+50 individual user PINs, user access PINs ensure that all functions controlled to authorized persons only. The door reed switch Input is used to time out the timer when door is moved for Anti-Trailing. It's designed to mount on a standard-single-gang electric wall box or on the surface of an interior or exterior wall.

Logical memory can prevent unauthorized persons from gaining PIN code entry by trial and error. The system will shut down for 60 seconds while 32 codes of incorrectly Master Codes enrolled or PIN codes attempted (None beeper signal of keypad activations). Metal die casting housing with vandal resistant screws to seize every security measure of the unit; an elegant contour dedicated with fashion coating which leads DG-250 for matching up-to-dated door stile for compensable application to the worldwide trend. The DG-250 is highly reliable, warranted for life and capable of providing the best read range in its class.
