

Installation Guide

ANG-11xx Power Kit

The ANG-11xx Power Kit is designed to firmly secure the unit's power cord and avoid disruption of service due to a disconnection. The cord is secured to the side of the ANG-11xx with an adhesive clip, as shown in Figure 1. Simply attach the clip an inch or so to the left of the power connector of the ANG-11xx. Then attach the cord to the clip and plug into the unit.
