

# CD DIRECT

CONVERSION TURNTABLE  
WITH CD RECORDER AND SPEAKERS

## Turn your classic records into compact discs and enjoy music anywhere.

Sometimes carrying a CD is the fastest way to listen to your music in your car, or other places. If you have records with your music on them, why re-buy the music when you can convert it to CD? CD Direct is the easiest way to convert vinyl records directly to CDs. A belt-drive turntable with premium tone-arm, CD Direct plays records at 33 1/3, 45 and 78 RPM speeds and also has built-in speakers for listening anywhere. CD Direct can also connect directly to a computer through USB for easy, quick LP audio conversion and transfer. CD Direct is all you need to update your vinyl albums!

### FEATURES

- Burn CDs directly from vinyl without the need of a computer
- Built-in speakers allow listening to CDs and vinyl records anywhere
- Plays 33 1/3, 45 and 78 RPM speeds to accommodate your entire record collection
- USB computer connection allows audio transfer to Mac or PC
