

VisionCompact front loader

A high-end notebook case for notebooks up to 15.4"

The high end VisionCompact combines 15 years of experience and excellence in developing notebook cases for the highest of demands.

Effective yet light weight safety padding made of high density foam protects the notebook from damage on all sides. Additional protection is offered by strips of patented *Permanent Air Cells* (PAC) and a reinforced frame. With this, the notebook, data, and accessories are perfectly safe in the event of drop or knock.

The high quality and robust outer material adds to the elegance of this case. The case floor is additionally protected from dirt and damage by the continuous synthetic coating on the exterior.

The notebook compartment is lockable and offers a notebook strap to prevent slipping in transit. Mobile phone, pens, business cards and documents are stowed within easy reach in the front pocket, whilst the power supply unit finds its home in the mesh cable pouch. Additional storage room is available in the integrated workstation with its retractable CD compartment on the rear of the case.

A soft retractable carry handle, detachable padded shoulder strap, and trolley fastening strap offer three separate and comfortable ways to transport the case.

Specification:

Colour:	Black
Dimensions:	455mm x 330mm x 140mm OR 17.9" x 13.0" x 5.5"
Weight:	1.8kg
