

RANGEBOOSTER G™ USB ADAPTER

ACCESS THE INTERNET

Get your computer online with a faster RangeBooster G™ wireless connection

TOTAL WIRELESS PROTECTION

Protect your personal information with easy-to-use wireless security features

ENHANCED NETWORKING

High-speed wireless networking for sharing files, music, and photos

ENHANCED WIRELESS PERFORMANCE

Connect to a fast and secure wireless network by adding the D-Link RangeBooster G™ USB Adapter (WUA-2340) to your desktop or notebook PC. Access your network's high-speed Internet connection while also getting secure access to shared files, music, and photos from other computers in your network.

RANGEBOOSTER G™ TECHNOLOGY

Built with RangeBooster G Technology, this Wireless USB Adapter delivers faster wireless signal rates and better reception than standard 802.11g devices. Having a faster connection gives you more time to enjoy listening to music and watching videos rather than spending time waiting for files to finish transferring. With better wireless reception, you can connect to the network from farther distances.

TOTAL NETWORK SECURITY

This USB Adapter offers total network protection by supporting WEP and WPA encryption. These features safeguard your data and privacy by giving you access to a secure wireless network.

EASY TO INSTALL AND USE

Set up the Wireless USB Adapter in minutes with D-Link's Quick Setup Wizard. In addition, D-Link's new utility detects available wireless networks so you can quickly connect to the network. It also keeps track of the networks used most often so that you can easily rejoin them. This Wireless USB Adapter is backward compatible with 802.11g and 802.11b standards, ensuring compatibility with a wide range of wireless routers and networks.

Offering enhanced wireless performance and total network security, the D-Link RangeBooster G USB Adapter (WUA-2340) is an excellent choice for adding wireless connectivity to your desktop or notebook PC.

WHAT THIS PRODUCT DOES

Get a faster and more secure wireless connection by adding a D-Link RangeBooster G™ USB Adapter to your desktop or notebook computer. Use this faster connection to share your high-speed Internet connection while also getting secure access to shared files, music, and photos on your network.

PROTECT YOUR NETWORK

The D-Link RangeBooster G™ family of wireless adapters offers easy-to-use security features to protect your personal information as it is transferred over a high-speed RangeBooster G wireless network. Use the included D-Link Quick Setup Wizard to easily connect to any of the various wireless network security configurations used today.

¹ Using a USB 1.1 port will affect device performance.

² Maximum wireless signal rate derived from IEEE Standard 802.11g specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.
