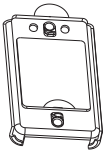
INSTALLATION

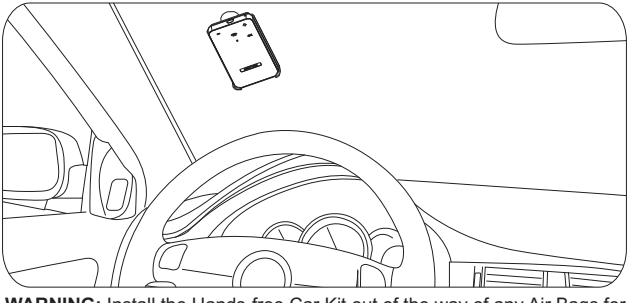
It is recommended that the hands-free car kit be positioned and installed on the windshield in front of the driver's shoulder, as shown in the picture below.



Step 1:
Stick the Windshield Mount to the windshield

Step 2:
Insert the bluetooth car kit

Step 3: OK



WARNING: Install the Hands-free Car Kit out of the way of any Air Bags for safety reason

GET STARTED

CHARGING THE NXBT-001

Using the car charger

Please charge the NXBT-001 before its first use. When charging, a red LED will be displayed. When the device is fully charged the light will switch off.

Using solar power

Direct the solar panel on the back of the hands-free car kit toward the sun. the operating time will be extended continuously without any additional charge required by the car charger.

Warning: Do not attempt to charge the hands-free car kit with any charger other than the one provided. Using another charger may damage or destroy the hands-free car kit.

Low battery indicator
When the battery is less than 3.5V, the device will make a sound and a red LED will flash thrice every 30 seconds.

TURNING THE NXBT-001 ON
Press and hold the button for 3 seconds to turn the NXBT-001 on. You will hear an audio cue of "Do Re Mi Fa".

TURNING THE NXBT-001 OFF
Press and hold the button for 5 seconds to turn the NXBT-001 off. You will hear an audio cue of "Fa Mi Re Do".

PAIRING THE NXBT-001

Initial pairing
- With the NXBT-001 OFF, press and hold the button for 5 seconds. You will hear a BEEP sound, and red & blue LED lights will flash alternately.
- Use your cell phone to search for Bluetooth devices.
- Select "NXBT-001" on your cell phone.
- Your cell phone will request a password. Enter "0000".
- Your cell phone will show that pairing is now complete.
- The NXBT-001 will stand by if the pairing is not successful within 5 minutes.

Auto reconnection
When the NXBT-001 turns off while connected to a cell phone, it will automatically reconnect to the cell phone when it is turned back on. (Both devices must be within the required range of 33 feet / 10m.)

When the NXBT-001 and your cell phone are separated by a distance of 33 feet (10 meters) or more, the NXBT-001 and cell phone will disconnected. When they are brought back within the required distance, the NXBT-001 will automatically reconnect with the cell phone.

FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with limits for Class B digital devices, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference through one or more of the following measures:
1. Reorient or relocate the receiving antenna. 2. Increase the separation between the equipment and the receiver. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. 3. Consult the dealer or an experienced radio/TV technician for help.
