# CD Radio Cassette Recorder

## CD player:

### COMPACT DISC DIGITAL AUDIO PLAYER

Unequaled in accuracy and realism, state-of-the-art compact disc technology is at your fingertips with some of the most sought-after features in the industry like next/previous track search and repeat one/all.

**20-TRACK PROGRAMMABLE** Store up to 20 of your favorite CD track selections to be played back in the order in which they are programmed.

**SHUFFLE PLAY** Plays all selections on a disc in random order, ignoring the sequential order in which they were originally recorded.

**NEXT/PREVIOUS TRACK SEARCH** This two button feature offers the opportunity to go back to the previous track or go forward to the next track instantly.

**REPEAT ONE/ALL** Selection of this feature repeats one track or all of the tracks on one disc based on user preference.

**SEARCH WITH SOUND** Audible "bits" of sound can be heard while searching backward or forward within any CD track.

## tuner/receiver:

**AM/FM STEREO TUNING** Rugged and reliable, this tuning system ensures quality station selection every time.

**TELESCOPIC FM ANTENNA** Adjustable to a variety of lengths this chrome-plated dipole antenna improves FM reception in any location.

**FERROCEPTOR AM ANTENNA** This built-in ferrite antenna with no external elements improves portability and surpasses AM reception capabilities of other units not so well equipped.

## cassette:

**STEREO CASSETTE DECK** A full function stereo cassette deck permits playback of music from your favorite artists as well as the ability to record from other sources such as CD or AM/FM broadcasts with control via a simple, easy-to-use mechanical push button assembly.

**CD SYNCHRO START RECORDING** One button allows the cassette deck and CD player to communicate with one another to synchronize the start of a recording on an analog audio cassette deck with the start of a CD or a CD program.

**FULL AUTO STOP** This mechanism senses a change in pressure when an audio cassette reaches the end and automatically stops the tape and disengages the transport mechanism.

**AUTOMATIC RECORDING LEVEL CONTROL** Micro electronic circuitry constantly monitors the final audio amplifier stage to ensure accurate, distortion-free recordings every time.

## sound/speakers:

**VARIABLE INCREDIBLE SURROUND™** An exciting, new, psycho-acoustic method of widening the stereo spatial image that expands the sound stage and is especially suited for applications with limited separation of left and right speakers.

**DYNAMIC BASS BOOST** Boosting bass response as much as 8 decibels (nearly 3 times more than normal) Dynamic Bass Boost yields full, rich tonal quality at all volume levels.

**BASS REFLEX SPEAKER SYSTEM** Acoustically tuned ports offer increased bass response for richer, fuller low frequency reproduction.

**METAL MESH SPEAKER GRILLES** Perforated, anodized grilles protect delicate speaker components with smart, high-tech styling.

**ROTARY VOLUME CONTROL** For smooth, linear volume adjustment.

## additional features:

**TWO-DIGIT LCD DISPLAY** A state-of-the-art Liquid Crystal Digital readout displays CD track numbers so you know just how many songs are left at a glance.

**STEREO HEADPHONE JACK** Plug in a set of stereo headphones and enjoy your favorite CD, cassette, or radio station with full, rich stereo separation without disturbing others.

**MICROPHONE JACK** Plug in an accessory microphone to record and sing along with your favorite audio cassette, CD, or radio station.

**BUILT-IN CARRY HANDLE** This rugged, integrated handle makes it easy to take your music with you anywhere you go.

**AC/DC OPERATION** For convenience this feature can't be beat. Listen to your favorite artists any time or any where using the detachable AC power cord or batteries available at any corner store.

**OPERATES ON SIX D BATTERIES** Just six D-cell batteries provide hours of uninterrupted music enjoyment anywhere you want to go.
