Tap "Apps" to download and install apps from the Market.
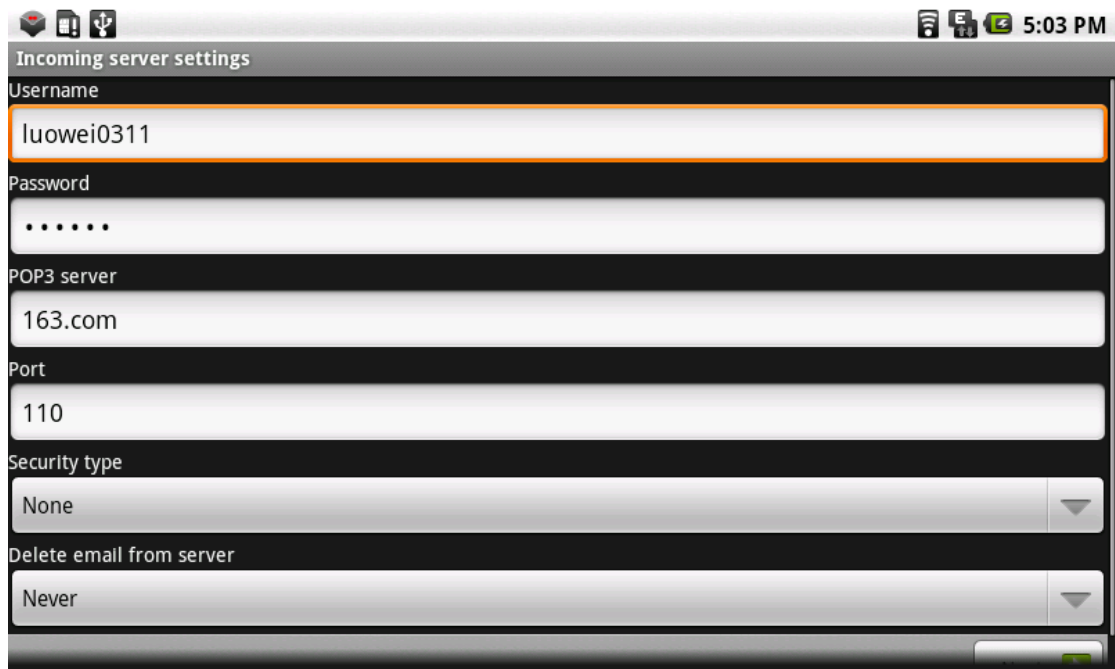

Tap "Games" to download and install games from the Market

Tap "Downloads" to find the apps that have been downloaded to your device.

Email

Set up your email accounts. You will need to contact your email server supplier for your email's POP3 and SMTP server related information, some of which can be found on the internet. Take gmail as a sample, search content "gmail pop3 smtp server" on internet, you will find gmail's pop3 server is "pop.gmail.com", related port is 995. Need "SSL" security.
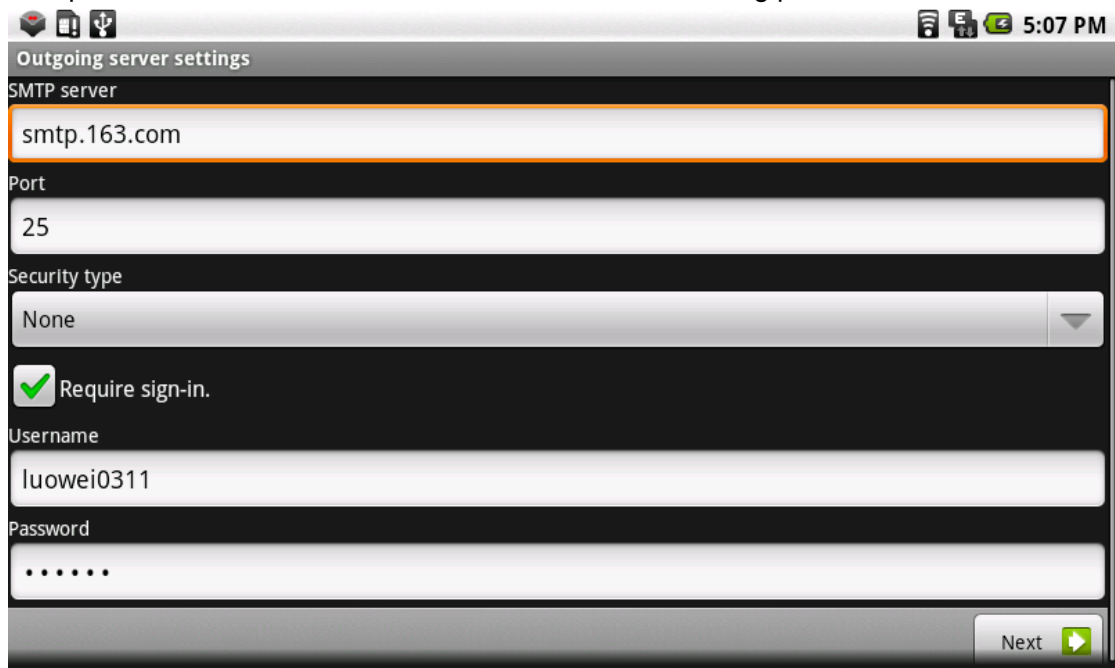

SMTP server is "smtp.gmail.com", related port is 465 if use SSL security. If choose TLS security, related port will be 587.

In the main menu, tap "Mail"→tap "Next"→Input your Gmail account and pass word→Tap "Manual setup"→tap "POP3 account" and you will enter into an interface similar with the following picture.

Check your username to see if it has been filled completely with "@gmail.com". If not, please add "@gmail.com" after your gmail account.

Tap "gmail.com" under POP3 server item to change it to "pop.gmail.com". And then change port to "995", tap item "Security type" to choose "SSL if available" and tap "Next" to set up SMTP server. The interface is similar with the following picture.

Change "SMTP server" to "smtp.gmail.com" and "port" to "465" or "587", choose security type to "SSL(if available)" or "TLS(if available)" respectively.

Then tap "Next" to finish setting. It will enter into your email account after a few minutes. Then you will need to give this account a name and input the name which will appear on the email that have been sent out by you.

Tap "" touch key to find more operations like composing a message.

When writing a message, tap " " touch key to get more operations like "Add Cc/Bcc",etc.

If you want to clear your email account and related data, please refer to "Clear data history" in "Setting" section.

Tools

This section is to tell you how to operate Sound Recorder and Touch Calibration.

Sound Recorder: In the home screen, tap " Applications" and find "Sound Recorder" → tap "Sound Recorder" to enter, and tap to start recording. Tap to stop recording. Tap "Use this recording" and the record will automatically be stored. Go to Multimedia in the home screen, tap "Music player" to find the records.

Touch Calibration:

In case you find your touch on the screen can not create a corresponding action, or respond wrongly, you need to calibrate your screen.

Touch on " "/ "Touch Calibrator"/, then, touch on each of the "+" marks appeared in order on the screen, after that, you will get the APP list Menu again, now, the screen calibration ended.

Trouble shooting

FAQs:

Q 1 : Why can't I link to Wi-Fi?

A: Please check if you have turned on Wi-Fi. Go to " "→ "Setting"→ "Wireless controls" → tap "Wi-Fi" to turn it on.

Please check if you have input the right password.

For more Wi-Fi related questions, please go to www.sungale.com and find Support→ Wi-Fi related FAQ.

Q2 : Why can't I install applications downloaded from the Market?

A: Please check your settings. Go to " "→ "Setting"→ "Applications". Check if there's a green tick after Unknown sources. If there's not, tap "Unknown sources" to turn the tick green.

Q3: How to find more operations when running an application?

A: Tap " " touch key.
