Designed with the enterprise in mind.

The Palm® Treo™ 800w smart device provides serious mobile business capabilities such as Outlook® email, GPS, Wi-Fi, and 256MB² of storage to keep you productive on the go.

And since it connects directly with a Microsoft® Exchange Server, the Treo 800w is ideal for the Microsoft-based IT infrastructure your company is probably using already.

In other words, the Treo 800w works for business because it was designed that way from the start.

Palm Treo smart devices connect directly with a Microsoft® Exchange Server, eliminating the need for third-party servers or middlewares.

² Approximately 170MB of available user memory.
