

**Introducing
Lexa® Eye Gear
The Ultimate Indoor/Outdoor
Mirror Lens**

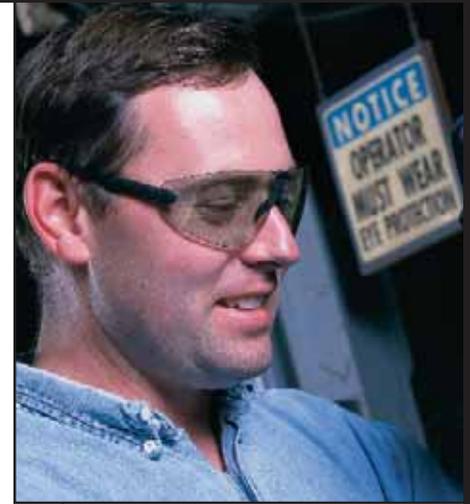

**A Better Way to Look and
A Whole New Way to See . . .
Whether You're Working
Inside, Outside or Both!**

AOSafety revolutionized the eyewear industry with the introduction of Lexa , the premium safety eyewear that offers the most refined, sleek design in the industry as the result of its patented contoured lens. Now Lexa has solved the age old problem of providing a lens for workers who work both indoors and outdoors. The Indoor/Outdoor Mirror Lens uses unique "thin film" technology to provide excellent vision in both indoor and outdoor lighting, allowing workers to wear the same pair of eyewear in both environments. As the result of this technology, your workers won't complain about seeing the reflection of their eyes on the backside of the lens, which is common with other Indoor/Outdoor products. Workers love it because they only need one pair of eyewear. Supervisors love it because it not only saves money but workers will wear Lexa ... all the time!

**Lexa®
Eye Gear**

Lexa[®] Indoor/Outdoor Mirror Eye Gear

You don't have to adapt to Lexa eyewear. It adapts to you!

- Provides Excellent Vision in Both Indoor and Outdoor Lighting
- Unique "Thin Film" Technology Reduces Backside Reflection
- Refined, Sleek Duralite[®] Polycarbonate Lens Designed to Fit the Contours of the Face
- Patented Lens Provides a Wide View of the Work Area with No Parting Lines
- DX[™] Anti-Fog Hard Coat Guards Against Fogging, Scratching, Static and Chemical Attack
- Lenses Absorb 99.9% of UV
- Two Sizes (Medium fits most workers)
- Ultra Lightweight for All Day Comfort
- Lens Angle and Temple Length Are Adjustable for a Custom Fit
- Strap Option Available for use in Active Applications or When Earmuffs are Worn
- Dust GoggleGear[®] Foam Adapter Changes Lexa Eyewear into Dust Goggles in a SNAP! (Order Separately)
- Optional Clear Hi-Set Nosepiece
- Custom Imprinting Available
- Meets ANSI Z87.1 and CSA Z94.3 Standards

Be sure to try Dust GoggleGear[®] for Lexa, the attachment that turns your Lexa eyewear into dust goggles in a "SNAP."
