MNS500 System

- *Portable, lightweight mattress replacement system*
- *Available in standard, narrow and bariatric sizes*

Yes, you can.®

The Invacare® MNS500 is a portable low air loss therapy mattress replacement system that provides the therapeutic benefits of pressure relief and skin moisture management. The MNS500 also provides the benefit of true low air loss for pressure ulcer therapy.

Features

- 135 liters per minute of fresh, dry air circulates between the patient and the support surface
- 8" air cell height for deep patient immersion
- Waterproof, vapor permeable therapy pad provides a low friction surface
- Provides pressure relief below capillary closure
- Pulsate option - every 45 seconds, the pressure increases and decreases in each cell

User-Friendly Controls

- Auto-firm mode for patient transfers or nursing care
- Auto-firm mode automatically cancels after thirty minutes
- Pressure control setting for easy comfort adjustment
- Fowler button on key pad with LED
- Single connector rapid attach and CPR deflate
- Low pressure and power failure alarm

Therapeutic and Portable

- MNS500 easily attaches to most medical beds
- Full depth mattress with 16 individual air cells
- Built-in lower safety mattress supports the patient in the event of power failure
