

Sonance C-Series Outdoor CRK20 and CRKW Speakers

CRK20 Speaker

CRKW Woofer

Sonance C-Series Outdoor Speakers

Sonance C-Series outdoor speakers bring high-quality entertainment to outdoor spaces while effortlessly blending-into the environment. Their rock-like appearance lets them become a part of the outdoor landscape, and their weather-resistant speaker elements will provide years of outdoor service.

The CRKW woofer's built-in crossover divides the signal, sending the bass only to the woofer and the rest of the signal to the satellite speakers. This increases the system's output and power handling while reducing distortion. The result is an outdoor speaker system that provides far higher performance than conventional systems. Both the CRKW and CRK20 feature water-resistant connections that prevent moisture damage.

With their rock-like appearance, choice of finishes on the CRK20 and resistance to weather, the C-Series outdoor speakers are ideal for background listening in the garden, by the pool, or at lawn areas.

Features:

- Rock-like appearance and finish blends-in with outdoor environments.
- Higher performance than typical outdoor speakers.
- Weather-resistant polypropylene woofer cones with rubber surrounds deliver strong bass.
- CRKW features built-in passive crossover network (150Hz crossover frequency), increasing satellite speaker power handling.
- Internal wire connections (CRK20) and waterproof termination cover (CRKW) prevent moisture from damaging connections.

SPECIFICATIONS

CRK20 Speaker

Tweeter:	1" (25mm) Polyurethane dome
Woofer:	8" (203mm) Black polypropylene cone, rubber surround
Frequency Response:	40Hz – 20kHz ±3dB
Impedance:	8 Ohms nominal
Power Handling:	5 watts minimum; 150 Watts maximum
Sensitivity:	90dB SPL (2.83V 1 meter)
Finish:	Granite, Brown
Dimensions (W x H x D):	15½" x 13½" x 11½" (394mm x 343mm x 292mm)
Shipping Weight:	25 lbs. (11.34 KG) pair

CRKW Woofer

Woofer:	10" (254mm) Black polypropylene cone, dual voice coil, rubber surround
Frequency Response:	35Hz – 150Hz ±3dB
Impedance:	8 Ohms nominal
Power Handling:	5 watts minimum; 150 Watts maximum
Sensitivity:	90dB SPL (2.83V 1 meter)
Crossover Frequency:	150Hz (low-pass); 150Hz (high-pass)
Finish:	Granite
Dimensions (W x H x D):	19¾" x 16⅞" x 14⅜" (492mm x 429mm x 365mm)
Shipping Weight:	20 lbs. (9.0 KG) each
