FEATURES

- Stereo sound
- Built-in Cable Management
- Plug and play one cable connection
- Power indicator LED light
- Magnetically shielded to reduce interference

SYSTEM REQUIREMENTS

Compatible with Windows® XP, Vista, Windows 7 or Mac® 10.1 and higher with a USB port

INSTALLATION

Read and follow all instructions carefully. Failure to do so could result in injury or equipment damage.

Step 1 - Unwind USB cable from around Portable USB Soundbar.

Step 2 - On the back of the Portable USB Soundbar, rotate stand to the down position.

Step 3 - Position the Portable USB Soundbar on top of your laptop or netbook computer screen.

Note: The laptop/netbook screen must be slightly tilted back in order for the Portable USB Soundbar to rest securely.

Step 4

Step 4 con't - Connect the USB cable to any available USB port, a blue LED will illuminate when the computer is powered on.

For PCs

Step 5 - The Portable USB Soundbar is a plug and play device. Plug-in the Soundbar, wait a few moments to allow the computer to recognize the device. Use your preferred media player and begin enjoying full rich sound.

NOTE: If the media player is already open you must close and restart the program in order for the media player to recognize the soundbar.

For Macs

Step 5 - After the Portable USB Soundbar is connected via the USB port, go to the System Preferences, available under the apple menu.

For Macs con't

Next select "Sound" option

Next select
"Output" under
the Sound Menu

Next Select “USB Audio”

Next close the window and start your preferred media player and begin enjoying full rich sound.

NOTE: If the media player is already open you must close and restart the program in order for the media player to recognize the soundbar.

FCC STATEMENT

Notice: Federal Communications Commission (FCC) requirements, Part 15
This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Any changes of modifications not expressly approved by the grantee of this device could void the users authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1 - this device may not cause harmful interference, and
- 2 - this device must accept any interference received, including interference that may cause undesired operation.
