

HBADZ600

ZONE SIX AUDIO A-BUS DISTRIBUTION HUB
FOR SUPERPRO PANELS

The HBADZ600 distribution hub for Honeywell follows the standard A-BUS protocol. It comes standard with six zones (i.e. rooms) and can be expanded by adding another HBADZ600 for up to 12 zones. The device is simple, compact and easy to use for system designers, installers and consumers.

FEATURES

Provides connectivity to six zones of CAT5 audio. The hub is easily expandable by cascading an additional A-BUS hub to accommodate more than six zones. LEDs indicate the status of source On/Off and IR distribution. Includes A-BUS power supply, 24VDC, 2.3A.

SPECIFICATIONS

- Hub Size
 - Single Height (takes up one expansion bay)
- Weight
 - 1.5 lbs (0.7 kg)
- Mounting
 - The hub mounts in any SuperPro panel
- Output Zones
 - Six RJ45 to six A-BUS volume controls
- Expansion
 - One RJ45 to additional hub for six more zones
- Power
